Water Supply/Sewage System: Check "public" if the facility is serviced by a municipal or public system. Check "private" (onsite) if the system(s) and its operation is onsite and only for this facility. A water/sewage system that is commonly used by several establishments (i.e.: a mall operation) would be a public system.

Operations under this registration: Provide the number of specific operations that apply to this registration. Complete even if the primary or main operation of the facility was identified under the facility type. A swimming complex with one spa, one beach, one indoor and two outdoor pools would report a facility type swimming pool-indoor and enter 1 for spa, 1 for bathing beach, 1 for indoor pool and 2 for outdoor pools in the operations under this registration Section A. For tanning facilities enter the number of beds and booths. Some facilities with multiple operations require separate applications, (i.e., a food service operated at a swimming pool complex would require a separate swimming pool and food service application, and would report their specific operations on the appropriate application forms).

Expected Opening/Closing Date: Enter the expected opening and closing dates (i.e., June 1 is 06/01). If the operation is year-round, enter 01/01 for opening and 12/31 for closing.

Days of Operation: Check each box for the day(s) the facility will be open under routine operation.

Hours of Operation: Enter the hour the facility is expected to open and close under routine operation. Circle AM or PM as appropriate.

SECTION B: Operator/Owner Information

Name of Legal Operator or Operating Corporation (Person in Charge): Enter name of the legal entity that operates the facility. If the facility is operated by a corporation, enter the name of the operating corporation and the name of the person in charge of the day to day operation. Provide the name(s) of the corporate officers/partners in Section F.

Permanent Address of Operator and Telephone Number: Enter the mailing address including street, city, state and zip code where the legal operator wants to receive mailed correspondence. Enter the telephone and fax number of the legal operator.

Employer Identification/Social Security Number: Enter the **Employer Identification or Social Security Number** of the operator of the facility.

Email Address and Fax No.: Enter the email address and fax no. where important health and safety alert messages should be sent during an emergency.

Name of Owner: Enter the name of the owner of the facility if different from the operator.

Permanent Address of Owner and Telephone Number: Enter the mailing address and telephone number of the owner if different from the operator.

SECTION C: Complete only for temporary food service establishments, regulated under Subpart 14-2 NYSSC

SECTION D: Complete only for mobile food service vehicles or pushcarts, regulated under Subpart 14-4 NYSSC

Check the appropriate type of unit. If motorized, provide the license plate number. Provide the name and address of the commissary where the food is prepared. Attach a separate list of the types of food(s) and/or beverages to be served.

SECTION E: Complete only for food/beverage vending machines, regulated under Subpart 14-5 NYSSC

Attach a list of the number and type of food dispensing machines including the address and telephone number of each site under this permit.

SECTION F: Partners and Corporation Officers

If a facility is operated by a partnership or corporation, provide the name, title, permanent mailing address and telephone number of all corporate officers or partners involved in the operation or ownership of the facility.

SECTION G: Workers' Compensation and Disability Insurance

Provide copies of appropriate forms documenting compliance with the Worker's Compensation Law for (1) both Workers' Compensation and New York State Disability Insurance coverage, **or** (2) exemption from coverage.

SECTION H: Signature

Provide the signature of the individual operator, a corporate officer or other authorized identified official in Section F. Please print the name, title and date in the space provided. **Failure to sign the form may delay issuance of your permit to operate. Operation without a valid permit is a violation of the State Sanitary Code and is punishable by fines.**

Check the one (1) risk category that applies to your proposed operation:

- LOW RISK** – “Low-Risk” food service establishments serve primarily non-TCS₁ foods (foods that do not need refrigeration), or TCS₁ foods requiring little to no processing (pre-cooked or no-cook foods) prior to service. Examples of common “low-risk” foods include hot dogs, pre-cooked hamburgers/sausage, pizza with only cheese and pepperoni toppings, popcorn, candy and most baked goods.
- MEDIUM RISK** – “Medium-Risk” food service establishments serve TCS foods requiring limited on-site processing (cook-and-serve). Examples of common “medium-risk” foods include hamburgers/sausage cooked from raw products, specialty pizzas, BBQ chicken, fish fries, deli sandwiches/subs, and any cooked vegetable-based dishes and sliced tomatoes.
- HIGH RISK** – “High-Risk” food service establishments serve TCS foods requiring significant processing (multiple cooking, cooling, and reheating steps) and/or involving transport of hot/cold ready-to-eat meals off site for service. Examples of common “high-risk” foods include many soups, roasted/smoked meats, potato/pasta salads, any raw meats, raw seafood, and any food items that are prepared ahead of time and reheated prior to service. “High-Risk” food service establishments might also include facilities which primarily serves food to a vulnerable population such as pre-school age children, the elderly or the infirmed.

Please include a copy of your proposed menu with your application materials. If you are unsure of what Risk Category applies to your facility or if you have any questions please contact the Cattaraugus County Health Department at (716) 701-3386.

- TCS – Time/Temperature Controlled for Safety.** TCS Foods include: poultry, beef, pork, lamb, other meat, fish, shellfish/crustacea, eggs, milk, all cooked vegetables, cooked rice & noodles, cut/prepared fresh fruits and vegetables including melons, tomatoes and salad greens; cream pastries, cream/custard pies and tarts, pudding prepared from a mix or from scratch, all gravies, all soups.

NOTICE

Proof of Completion of a Certified Food Protection Manager Course is Required for All Medium-Risk and High-Risk Permits

Cattaraugus County requires all medium-risk and high-risk food service permit applicants to provide proof that a manager/supervisor has completed an ANSI-CFP accredited “Certified Food Protection Manager” course at the time of application. Both in-person and online classes are acceptable. Please refer back to your risk-category worksheet to determine if this applies to your application.

Failure to provide proof of training when required will result in delays or denial of your temporary food service permit. No exceptions will be granted.

The following list of training courses are acceptable. Other ANSI-CFP accredited training courses not listed here will also be accepted.

Additional Requirements for Food Service Establishments with Onsite Water Supplies and Wastewater Treatment Systems

Public Health
Prevent. Promote. Protect.
Cattaraugus County
Health Department

If your food service establishment will be served by an onsite water supply and/or wastewater treatment system, additional requirements must be met beyond Subpart 14-1: Food Service Establishments.

These requirements do NOT apply to establishments served by municipal water supplies and wastewater treatment systems.

Onsite Water Supplies

Development of any new public water supply requires new source water testing as well as an engineering plan review and approval. Permanent disinfection systems are required for all new public water supplies. Additional treatment may also be necessary depending on the results of the source water testing.

When estimated development costs are less than \$5,000, the treatment plans may be prepared by the owner or water treatment supplier. For more extensive treatment systems, costing more than \$5,000, plans must be prepared by a NYS licensed professional engineer.

Please contact our Water Resource Specialist, Timothy Zerfas at (716) 701-3388 for more information or to discuss the specifics of your situation.

Onsite Wastewater Treatment Systems

Due to wastewater volume, food service establishments will typically require the services of a NYS licensed professional engineer to develop plans for the construction of the new wastewater treatment system. These plans must be submitted to the health department for review and approval. A SPDES permit may also be required from the NYSDEC depending on the system design flow.

It may be possible to use an existing wastewater treatment system if it meets all state and county design requirements. If you decide to use an existing system, it may need to be partially uncovered and evaluated by your engineer to document its size and condition, and modifications may be required.

Please contact your nearest health department office if you have any questions.

SPECIAL NOTICE

New York State Workers' Compensation/Disability Benefits Insurance Requirements

Effective December 1, 2008, the New York State Workers' Compensation Board (WCB) has replaced Form WC/DB-100 (previously used to demonstrate exemption from WC/DB insurance requirements) with the new Certificate of Exemption (Form CE-200). Consequently, every permittee MUST EITHER:

A) Provide current insurance policy information (see application section G)

OR

B) File a current Certificate of Exemption (CE-200) form with your Department of Health permit application.

Failure to provide complete and accurate information about Workers' Compensation/Disability Insurance, or proof of exemption, will preclude the Health Department from issuance/renewal of your permit. Current forms must be attached to your application each year or the permit will be denied in accordance with the New York State Workers' Compensation Law (NYSWCL).

An overview that clarifies the requirements and the CE-200 exemption form can be found on the WCB website (www.wcb.ny.gov/content/ebiz/wc_db_exemptions/requestExemptionOverview.jsp). New instructions for obtaining a certificate of exemption through the NY Business Express website are printed on the reverse side of this notice.

If you have questions or need assistance you must call 1-877-632-4996.

The majority of these forms will be processed electronically. Applicants with internet access must complete the questionnaire online and print a copy of the CE-200 exemption to enclose with your permit application. Applicants without internet access should call the help line number above to request a paper form for mailing. However, be advised that mail applicants may wait up to four weeks before receiving their approved CE-200 form. To avoid delays, ALL applicants are strongly encouraged to use the online form. Therefore, if you do not have a computer with internet access, we suggest you visit your local public library to use one.
